

Thanks to Mathilde Tagger, we received an important document listing the names of those who perished during the Holocaust in Volos. The document was list of the names of those who were deported and exterminated, along with the names of those who died during the harsh German Occupation, or were executed in Volos by the Germans. Additional information was gathered through cross-referencing, especially with information provided by Raphael Frezis to Yad Vashem in 2007. Through cross-referencing, we can also include the information of those who were born in Ioannina, and the names of those who were born in Volos but were deported from elsewhere, either in Greece or in other countries.

May their names all be inscribed for eternity.
